world trade is here, breeds greed & fear
what are you gonna do?

sit back and take it, relax and fake it
let them roll over you

CHORUS:
get the fuck out, get the fuck out of our town
get the fuck out
world trade, you can't keep us down!

who's got the power? you thought it was ours
that's called democracy

three men in suits, settin disputes
sounds like hypocrisy

CHORUS

rise up and shout, kick world trade out
we don't need all their lies

now is the time to stop corporate crime
let's reclaim all our lives

CHORUS

take to the street, march to the beat
make your voice be heard
cooperation not exploitation
we're gonna build a new world CHORUS
